- Researching, designing, architecting, implementing, and deploying in the 5G-DIVE European-Taiwanese joint project, in order to build a state-of-the-art PaaS (Platform as a Service) and a MLaaS (Machine Learning as a Service) for the edge of the network. In charge of the research and analysis of the CI/CD tooling, as well as the actual integration and deployment.

Culture of Insight

UK | Aug 2019 - Dec 2020

(R, Docker (Compose), AWS)

- Led the transformation to perform a DevOps approach, in order to productionize code for a Twitch application. This included the dockerization and guided deployment of a analytics service for Twitch.

ACSdesk

Spain, Switzerland, Chile, India | May 2016 - Dec 2019

(Linux, JavaScript, Ruby on Rails, MongoDB, Redis, Ansible, Docker, AWS, DigitalOcean, Zabbix, Vagrant, Git)

- Company I founded which targeted ISPs in order to deploy and operate GenieACS, an auto-configuration and 0-touch device provisioner.

AP Data Services Ltd

UK | Feb 2019 - Dec 2019

(R, Shiny, ShinyProxy, AWS, Docker, DockerHub CI, Selenium, Terraform, Linux, Git, Packr)

- Developed a financial service product for banks in the UK to check data integrity and perform data anonymization on sensible data.

Good Peoples Connected

France | May 2018 - Jul 2019

(Ansible/AWX, Python, Raspbian, Hashicorp's Vault, GitLab)

- Developed a custom hardware solution for the hospitality sector, an IoT device to provide Wi-Fi access to clients.

Upwork

UK, Bulgaria, South Africa | Feb 2018 - Jun 2018

(R, Selenium, Research)

- Worked in a range of different projects, including web scraping and research.

Anvimur Telecomunicaciones

Spain | Sep 2017 – Sep 2018

(Python, Linux, JavaScript, MySQL, Ansible, Docker, Network Engineering, Git)

- Developed software middleware solutions to automate the process of router deployments, as well as leading the transformation process to Ansible for our fleet of servers.

InnoXess

Switzerland | Mar 2016 - Aug 2017

(Linux, Ruby On Rails, JavaScript, Apache, MongoDB, Redis, DigitalOcean, Git)

- Developed and maintained GenieACS, including its provisioning flows. Architected different cloud solutions to different clients.
